COLLECTION OVERVIEW

NATURAL RESONANCE

The new collection from 101 Copenhagen is inspired by the quiet resonance found within nature - the way colours soften under sunlight, how stone and wood becomes textured through time, and how natural materials carry depth, warmth, and memory within them. Drawing references from deep forest greens, desert earth, weathered minerals, and ancient handcrafted objects, the collection explores the connection between nature and contemporary living.

Through sculptural furniture, tactile upholstery, and richly glazed ceramics, organic forms and natural materials come together in a colourful, yet harmonious palette. Soft textures, warm wood tones, and layered surfaces create interiors that feel both serene and expressive. Each piece carries a sculptural presence designed to evoke atmosphere and emotion, inviting a slower, more tactile experience of everyday life.

At the heart of the collection is the introduction of new upholstery fabrics, most notably the luxurious Wool Velvet fabric in three colours: Desert, Rust, and Peat. Inspired by mineral landscapes, burnt earth, and aged organic materials, the fabrics bring warmth and depth to selected designs within the Toe, Foku, Hiro & Nama collections. Alongside this, a new woven fabric Dark Brown expands the tactile universe with a refined and timeless character. Subtle colour variations shift in the light, creating warm and inviting interiors.

Expanding the Toe collection, 101 Copenhagen introduces the Toe Sofa and Toe Chair Armrest, where softness meets architectural precision. Defined by a plank-like armrest inspired by the iconic Brutus Chair, the designs reinterpret brutalist forms in a softer expression.

The Bow Console is now introduced in wood, preserving its architectural arches while gaining warmth through natural oak grain. Meanwhile, a new signature finish, Classic Brown, is applied to lacquered oak, adding depth and warmth to the collection. Paired with Aniline Black Leather, the Nama Dining Chair and Lounge Chair take on a more refined and timeless character.

Ceramic developments continue the natural narrative with earthy tones such as Almond, Dark Chocolate, Rose, and Maroon, alongside a deep glossy Dark Green inspired by ancient ceramics. Marrakech Blue forms a bold contrast - inspired by Moroccan architecture and sun-faded walls.

Together, the collection reflects 101 Copenhagen's ongoing fascination with sculptural forms, tactile materials, and timeless craftsmanship - rooted in nature, yet shaped for contemporary living.

REDEFINED DETAILS AND MONUMENTAL SHAPES ROOTED IN THE SCANDINAVIAN SOIL AND NOURISHED BY JAPANESE MINIMALIST AESTHETICS

101 Copenhagen is a Danish design brand founded in 2017. With a vision to honor exquisite quality and craftsmanship, the collection encompasses furniture, lighting and accessories in a timeless, yet modern design. With a true passion for materials and refined textures, organic shapes and colours, 101 Copenhagen presents the epitome of classics and must-have novelties for Scandinavian and international interior connoisseurs alike. The design of 101 Copenhagen is firmly rooted in the Scandinavian soil and nourished by Japanese minima-

list aesthetics. Sharing an emphasis on quality materials, techniques and traditions, the meeting between the North and the East is notable in the holistic collections of 101 Copenhagen. The design approach is dynamic and characterised by freedom of expression - creating unique and timeless pieces without compromising on playfulness and individuality. An attention to detail and a shared sense of aesthetics is what drives the two main designers of 101 Copenhagen, Tommy Hyldahl and Kristian Sofus Hansen. Merging their backgrounds and

experiences from the fashion industry, the Royal Danish Academy of Fine Arts and travels in Japan respectively, a narrative of minimalist, sculptural and conceptual design is evident throughout the collections. Translating and transforming the simplistic inspiration from Japan in a Scandinavian context is all about honouring quality, heritage and materiality while never seizing to compromise on form and function. 101 Copenhagen is a curated selection of tactile, bold objects standing out in a crowd and gathers as a whole.

HANDCRAFTED MANUFACTURING PROCESS IS A METICULOUSLY CRAFTED JOURNEY THAT LENDS EACH PIECE OF FURNITURE AND VASE ITS OWN UNIQUE PERSONALITY.

Our handcrafted manufacturing process is a meticulously crafted journey that lends each piece of furniture and vase its own unique personality. Unlike mass-produced items, where uniformity is the rule, our creations embrace subtle variations and an organic texture that truly set them apart. This not only makes each piece one-of-a-kind but also resonates with discerning customers who appreciate the value of craftsmanship, individuality, and artistic expression in their living spaces. The cornerstone of our products lies in the 'organic roughness' a quality that truly distinguishes our furniture and vases. This natural imperfection arises from slight variations during handcrafting, which is not a drawback, but rather a signature trait that signifies authenticity and artistic

integrity. From inception to completion, our skilled artisans are deeply involved in every step of the process. Each piece undergoes multiple rounds of hand-painting, sanding, and shaping, making it a canvas of intricate artistry rather than just another piece of furniture or decor. This meticulous attention to detail results in characteristic colour schemes and designs that are uniquely our own. For those who seek more than just utility in their purchases, who see their surroundings as an extension of their individuality, our pieces offer that rare combination of form and function where each piece is not just designed but also 'sculpted' to life. These are not mere items of utility but tangible pieces of art, imbued with the touch of the human hand.
